SUIT OF MRS. ELIZABETH SHIV- PROMINENT RESIDENT ERS AGAINST ELECTRIC ROAD.

ALEXANDRIA, Va., January 1, 1906. The last of the numerous damage suits against the Washington, Alexandria and Mount Vernon Railway Company, most of which arose from the collision at Spring Park nearly a year ago, are being disposed of at this term of the circuit court for Alexandria county, Judge C. E. Nicol presiding. In observance of New Year the court was not in session today, but it will reconvene tomorrow morning, when the case of Miss Elizabeth Shivers against the electric road will be taken up. Through her attorney, Mr. Leo P. Harlow, Miss Shivers has brought suit for damages in the sum of \$25,000 for alleged personal injuries sustained in an accident at Four-Mile run last April. The company will be represented in the trial by Attorneys R. Walton Moore of Fairfax and James R. and H. B. Caton of this city. As was stated, counsel for the railroad company attempted unsuccessfully last week to obtain an order from Judge Nicol for the removal of the damage cases to the circuit court for Prince William

## ANACOSTIA AND VICINITY.

The New Year Heralded by Burning of Much Red Fire Although the hour of midnight was an-

nounced by the explosion of rockets, the discharge of firearms, in some instances, and the burning of red lights, with the sounding of horns, there was no untoward incident to mar the arrival of the new year in this section of the District. The glaring red ice held in the town was in the Anacostia Methodist Episcopal Church, corner of Jackson and Pierce streets, where the Epworth League began exercises at 9:30 o'clock. Mr. John Fort, the president, presided. Mr. George F. Tibbits, the secretary of the Interstate Young Men's Christian Association, delivered an address, as did Mr. Cameron Beck, the assistant secretary. Mrs. Beck sang. Shortly after midnight Rev. Charles O. Isaac. the pastor of the church, took charge of the meeting and conducted the service until the advent of

the new year. New Year day was observed this morning in St. Teresa's Church, Washington and Fillmore streets, Anacostia, by masses celebrated at 6 and 8 o'clock. Rev. Charles M. Bart, the pastor, preached the sermon at the latter service, recalling to the minds of his hearers the happenings of the past year. In conclusion he tendered the congregation his best wishes for the year just

#### THOUGHT IT WAS LEAP YEAR.

Attorney Given Bases Conclusion on Conditions at Police Court. Assistant District Attorney Ralph Given

of the Police Court came to the conclusion early this morning that there had been a reversal of conditions with the opening of the new year. The first case that came up for his investigation was that of Geneva Brooks, colored, for making an assault on her friend, "Allie" Campbell. Following that case was that of Lillie Lusby, and the information charged an assault by a wife on her husband. The first two cases of the new year proved to be assaults by representatives of the gentler sex instead of the reverse, and Mr. Given asked if this

was leap year.

Another significant fact in connection with the United States branch of the court was that the first trial, that of Geneva Brooks, ended in a sentence of one year less a day in jail. Should this prove to be a foregivener of what will follow; it behaves

less a day in jail. Should this prove to be a forerunner of what will follow, it behooves the people of the District to be good during the year.

In the case of Geneva Brooks the testimony showed that Campbell went to see the girl at her home, and that while there they had some words and a dispute followed. Geneva secured a butcher knife and began to carve the back of Allie's neck and his nose. He was injured so badly that medical treatment was required.

The girl was arrested by Policeman Hollaran of the eighth precinct station and she was called on to explain this morning. She maintained that she was attacked first, but Judge Kimball found that the government witnesses presented the most convincing evidence.

Following that case the Lusby case was

vincing evidence.

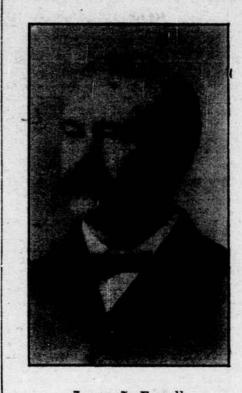

Following that case the Lusby case was called. The defendant pleaded not guilty. To the statement of her husband that she had struck him with a poker, she replied that he was drunk and was throwing chairs and other articles in her direction, and she struck in self-defense. At the conclusion of the evidence the woman was released on her personal bonds. leased on her personal bonds.

The Prensa Opposes Roosevelt Plan. The Prensa newspaper at Buenos Ayres, Argentine, opposes the proposal of Mr. Roosevelt to create a pan-American arbitration tribunal, and says that The Hague tribunal is good enough for Latin America, adding, moreover, that the proposal seems to be a sequel to the Monroe doctrine as interpreted by Mr. Roosevelt. The Prensa says it appears that Mr. Roosevelt wishes to eliminate Europe from intercourse with South American nations, therefore it is not South American nations, therefore it is not convenient to adhere to any measure tending to part South America from the civilizing influence of Europe. The American minister, Mr. Beaupre, sent the Argentine minister of foreign affairs a note thanking him for the declarations made in the chamber in September last about the Monroe doc-

#### SWINDLING BY BANKERS.

State Official Tells of Dishonest Methods-Recommendations.

Criticisms of the policy of the state bank department, especially in connection with the failure of certain banking institutions of the state during the past year, form an important part of the annual report of Frederick D. Kilburn, superintendent of banks, to the legislature, made public at Albany, N. Y., 'last night. Mr. Kilburn also has some interesting things to say of the swindling of immigrants. "After a bank fails," said Mr. Kilburn,

'and disclosures of dishonesty are made it is wondered why such things could go on undiscovered so long. It must be re-membered that these frauds and deceptions are in most instances being carried on by men of unusual ability-men who stand very high among their neighbors, not only in business, but also in social, re-ligious and political matters. Almost invariably they deceive the whole commu-nity, their business associates, their friends and even their families. It is frequently an astonishing revelation to all of these that the banker who has failed, defaulted and perhaps absconded or killed himself is a man of wealth, as well as the ideal of honor and business integrity."

The superintendent recommends that the banking department should have authority over railroad and steamship ticket-selling agencies which, in conjunction with their business, receive deposits of money for transmission to foreign countries. It is charged, Mr. Kilburn says, that through some of these agencies "immigrants are swindled out of more than \$1,000,000 every year-a part by flight of the 'bankers' after they have accumulated deposits of from \$5,000 to \$50,000, but more by their accepting funds from newly arrived immi grants for the purchase of steamship tick-ets, with agreement to transmit them to friends or to relatives of the emigrants in Europe." These funds or tickets, he says, are oftentimes not transmitted, and when grant is tricked or frightened into not car

rying the matter further.

Of the general condition of the banks of the state, the superintendent says that growth in volume of business and improvement in condition have been considerable ond practically continuous. The increase for the year in aggregate resources has been \$64,000,000, and for two years \$140,000,-000, representing "a total never before of savings banks the report says that the growth of deposits from July 1, 1904, to July 1, 1905, was \$86,856,855, an amount larger by about \$15,000,000 than was ever reported

for any one year. The total deposits, July 1, were \$1,252,928,299, and the number of open accounts \$2,513,570. The gain in resources by savings banks, banks and trust companies for the year was more than \$448,000,000, or \$256,000,000 n excess of that for the previous year.
